I must know if you intend to come by Sunday, April 15th so I can provide the venue accurate counts.

*** Planned pairing method is groups of 4, double round robin, with a king of the hill final round. Should the number of players not be divisible by 4, some groups may have 6 players. Those groups will play a round robin, a round of swiss, and a final king of the hill round. Gibsonization applies in final round only. Which group(s) have 6 players will be determined by director in order to keep rating differences as small as possible.**
