

## First Rated Super-S Club Tournament in Southern California

Hey Super Scrabblers! After 3 years of getting accustomed to the Super Scrabble™ games while playing on a board with 21x21 grid squares, members finally feel comfortable to compete in a tournament. Complete equipment is provided, however, we are limited to **40 participants**.

This is the first time in North America that a Super Scrabble™ tournament is offered complete with a rating system. The tournament will start as an open competition—divisions based on previous rating do not exist, because everyone will begin with the same rating: 0+500 points. We cannot use your previous standard Scrabble™ rating because there's a big difference in the resultant score in a Super Scrabble™ game. All players, including future unrated players, will start with a fixed 500 points to establish their first algorithm. It is planned to continue holding this event once a year. All subsequent tournaments will be based on their first Super Scrabble™ rating, which will determine the division placement on the subsequent tournaments. **100% of entry fees, minus expenses, will be returned as place prizes.** Everyone will have a chance to win prizes, similar to the bi-weekly Super-S Club format. Lunch is available at a discounted price from the Golf Club restaurant.

### Super Scrabble™ Tournament
